

“Choice” on Community End-of-Life Care cum Visit to Society for the Promotion of Hospice Care (SPHC) Hospice Home

There are difficult choices in deciding where to be cared for at the end of life. End-of-life care at the residential or long-stay care homes are often seen as complicated and challenging. This professional symposium is designed for health and social care professionals who are interested in understanding different community end-of-life care options. Experts in end-of-life care from the Haven of Hope Sister Annie Holistic Care Centre, Society for the Promotion of Hospice Care, and the Hong Kong Association of Gerontology will share their rich practical experiences that facilitate “choices” beyond caring at hospitals. After the symposium, participants will be invited to visit the newly commissioned “The Jockey Club Home for Hospice”.
