

Workshop on Implementation of the “VIP for Future Care” Model in Mainland China

A new model—“VIP for Future Care” which has been developed by her team based on previous research will be introduced and implementation procedures will be introduced as well. **VIP** means **V**ideo, **I**llness experience, **P**references, to show the ACP communication process and method. And **VIP** also means **V**ery **I**mportant **P**erson, to show respecting for people’s right. Prof. DENG will share the VIP model and the communication procedures between patients and family and health providers in Mainland China in this conference.
