

Workshop on Rejuvenating Personhood at the End-of-Life

Providing dignified end-of-life care is the key to improve quality of life of patients and family members. This one-day workshop is specially designed for health and social care professionals who are dedicated to preserving dignity in end-of-life care. It will introduce the model of Relational Personhood for understanding dignity among Chinese elderly. Participants will learn theory, assessments, and practice protocol for an advance care intervention developed based on this model.
